Queensland COVID Updates and Directions

Queensland Border Restrictions

Restrictions from 13 December 2021

- A person who has been in a declared hotspot in the past 14 days may travel to Queensland provided they:
 - Are fully vaccinated
 - Have a negative COVID-19 PCR test within 72 hours prior to arrival in Queensland
 - Agree to get a COVID-19 PCR test on day 5 following arrival into Queensland
- There is no quarantine required if a person meets these criteria.
- Border Zone residents do not need to provide a negative COVID-19 test result to cross the border, however, will need to be fully vaccinated to travel freely between Queensland and the non-restricted NSW border zone.
- Fully vaccinated people can travel to Queensland from the restricted border zone for permitted and essential purposes.
- Children aged under 12 years old will be automatically exempt from the requirement to be fully vaccinated, however will need to have a negative COVID-19 test and will need to travel with a fully vaccinated adult.

Changes to requirements for close and casual contacts

Restrictions from 1 January 2021

- Changes to requirements for close and casual contacts will be eased for fully vaccinated people.
- A close contact is defined as a person who has had at least 15 minutes face-to-face contact or shared an enclosed space with a COVID-19 case and there is reasonable risk of infection.
- Public Health Units will consider vaccination status, mask use and how long a person was near the positive case along with a number of other environmental factors to categorise people as one of the below types of 'contact':
 - **Low risk casual contact** – no quarantine or testing requirements
 - **Casual contact** – get a COVID-19 PCR test immediately and home quarantine until receiving a negative test result. Encouraged to wear a mask, when outside the home for 14 days following exposure
 - **Vaccinated close contacts** – quarantine for 7 days and get a COVID-19 PCR test immediately and on day 5. If day 5 test is negative, the contact may leave from quarantine on day 8 but must wear a mask when outside their and not visit high-risk settings until day 14.
 - **Unvaccinated close contacts** – quarantine for 14 days and get a COVID-19 PCR test immediately and on 5 and 12. If the day 12 test is negative, the contact may leave home quarantine after completing 14 days.

Helpful Resources and Industry Support

Free online course to help you prepare for reopening – check out the free module [COVID SAFE for Business course available on the TAFE Queensland website](#). This is fully funded by the Queensland Government and will only take you a few minutes to sign up and get started on the module called COVID Safe For Business.

There are some excellent scenarios and topics covered that include diving into the rules for business, voluntary measures, how to check vaccination status and where to get more advice. Check it out, it will be really helpful to your members and staff. Below are a few grabs from some of the resources and videos.

Queensland COVID Updates and Directions

[Public Health and Social Measures Direction](#)

Outlines restrictions linked with vaccination status.

[Queensland Border Restrictions](#)

Outlines the travel requirements for entering Queensland

[Changes to requirements for close and casual contacts](#)

Provides guidance to help organisations plan and manage situations where COVID-19 positive people have been in their venue.

[Vaccination requirements for workers in high risk settings](#)

Workers in some industries and high-risk settings must be fully vaccinated against COVID-19. This includes workers entering education settings.

Signage for Organisations and Venues - Display these signs to clearly show if proof of vaccination is required to enter your business:

- [From 17 December – Proof of vaccination will be required sign](#)
- [Proof of vaccination required sign](#)
- [Proof of vaccination **not** required sign](#)

Got Questions?

We suggest checking in with your [state-level organisation](#) so they can provide advice specific to your sport or activity. You can also contact your peak body:
